

QMEA - MUSIC EDUCATION WORKSHOP

FEBRUARY 12TH, 2010

9:00-2:00

ROYAL WEST ACADEMY, 189 EASTON AVE. MONTREAL WEST

Developing musical competences by the use of interactive technology

Music is your own experience, your own thoughts, your wisdom. If you don't live it, it won't come out of your horn. They teach you there's a boundary line to music. But, man, there's no boundary line to art - Charlie Parker

This workshop will address the development of the musical competencies, as required in Quebec's Educational Program. Our presenters will combine their technical expertise with their musical experience and will share with you useful information that can be applied to all types of music classroom settings in primary and secondary school.

Part 1: *Get smart! Get a Smartboard for your music class !*

Caroline Dupuis (Information Technology Professional from EMSB) will provide an introduction and basic use of Interactive Smartboard (9:30-10:30).

Valerie Descombes (elementary) & Isabelle Plante (secondary) will share tools, programs, lesson plans and years of experience using Interactive Smartboard Technologies in their music classrooms (10:30-11:30).

Part 2: *Developing the competency of music appreciation*

Through the eyes of the music creator, composer Louis Babin will explore ways to develop music appreciation. M. Babin will address relevant topics such as style, form, genre of music and will refer to ways in which appreciation can be achieved through the teaching of composition and interpretation (12:30 – 2 :00).

Cost

QMEA Members: 35.00
