

IMPORTANT NOTICE

Dear Consultants and Teachers,

Please be advised that only one section (Section 7.3) of Chapter 7, the final chapter of the Science course for Math Cycle 2, year 2, will be made available before the end of the school year.

To support the teaching of the content of Science Chapter 7, each student registered will receive a copy of Chapter 6 from the Technical and Scientific text the week of May 11th, 2009. The content of Sections 1 and 2 from Chapter 6 of Technical and Scientific cover the same concepts and process as will Chapter 7 of the Science option (see table below).

In addition, each student will receive a Science booklet covering additional concepts for the Science option (Chapter 7 - Section 3 of the Science text) the week of May 25th.

CONTENT		
	Science Chapter 7	Technical and scientific Chapter 6
Section 1	<u>Trigonometric ratios</u> - Trigonometric relationships in a right triangle	
Section 2	<u>Finding missing measurements</u> - Relations involving an angle of 30° in the right triangle - Solving a right triangle	
Section 3 (Booklet to be received May 25 th)	<u>Solving any triangle</u> - Sine and cosine of an obtuse angle - Sine law - Cosine law	Not required for the Science course.

We kindly ask that you inform all parties involved with the instruction of the Math Science course, Cycle 2, year 2.

If you need any additional information, please email Bev White (bwhite@learnquebec.ca) or Margaret Dupuis (mdupuis@learnquebec.ca).

We appreciate your assistance.

Sincerely,
LEARN
