### **Description:**

In this full-day, hands-on workshop, participants will engage in and reflect on the portfolio process while exploring EPearl, an on-line portfolio tool available in many Québec school boards. Through video excerpts of interviews, sharing by practitioners who use the tool, discussions and reflection, workshop participants will come away with a better understanding as to why portfolio is a powerful pedagogical tool and how it helps students become more aware of their thinking and learning. Current portfolio leaders, users and educators simply interested in developing a portfolio practice will find here the rationale for their portfolio practice, as well as concrete ideas and tools to help make it happen in their schools and classes.

**Target Audience:** Elementary cycle 2 and 3 teachers and consultants

Dans cet atelier mains sur les touches, les participants vont s'impliquer dans et réfléchir à la démarche portfolio en explorant PERLE, un portfolio en ligne qui est disponible dans plusieurs CS du Québec. Par le truchement de vidéos, de partage avec des enseignantes praticiennes et de discussions vous comprendrez pourquoi le portfolio est un puissant outil pédagogique et comment il aide les élèves à devenir plus conscients de leurs mode de pensée et de leurs apprentissages. Que vous soyez déjà un praticien du portfolio ou intéressés à développer votre pratique, vous trouverez ici le rationnel pour votre démarche ainsi que des outils et idées pour bien démarrer en classe ou dans votre école.

**Clientèle cible :** Conseillers et enseignants du primaire, 2<sup>e</sup> et 3<sup>e</sup> cycle
