

WOTP DIRECTORY OF SEMISKILLED TRADES

Summary Document

Valid for the 2020-2021 school year only

Source: Ministère de l'Éducation du Québec (MEQ)

The information contained in this Summary document should not be considered an official source of information. This Summary document has been designed by the DEEN-CREATE Subcommittee to be used as a quick reference tool when access to the online version of the Directory of Semiskilled Trades is either impossible or impractical. To ensure proper certification for students, it is strongly advised to verify semiskilled trade titles, codes and competencies with the official online version of the Directory of Semiskilled Trades, as found at the following website:

http://www1.mels.gouv.qc.ca/sections/metiers/index_en.asp?page=recherche

Please take note of the following:

New trade codes are highlighted in yellow; the old course codes crossed out remain for reference purposes.

New or revised trade competencies and trade competency codes are also highlighted in yellow; adjusted wording is crossed out, if applicable.

This symbol  may appear next to the title of certain semiskilled trades in the Directory to indicate that they have not been revised or validated by the *Comité sectoriel de main-d'œuvre* (industry sector committee) of the related sector. Once they have been thoroughly revised, some of these trades may be kept as is, modified or withdrawn from the Directory of Semiskilled Trades.

Competencies in italics are optional and not required in all workplaces. They could be included in a student's training plan if the practicum setting offers the opportunity for the student to apply them.

Appended to this is a document that lists only the names of the semiskilled trades in English and French.

Please report any errors or omissions in this document to Michilynn Dubeau at michilynnd@gmail.com.

Created by the WOTP Project Development Officer, November 2020

8839 8759 Fur Trapper

Fur trappers trap furbearing animals in order to market their pelts. They carry out their activities on public or private lands, on territories leased to them, on Aboriginal community territories, on territories covered by the James Bay and Northern Québec Agreement or on beaver reserves. Trappers also trap nuisance wildlife at the request of government departments, cities or municipalities, logging companies, farming businesses, outfitting operations, ZECs (controlled harvesting zones) or even citizens. They work in forest, rural, suburban or urban areas. The possession of a valid trapper's certificate and a valid trapping license is mandatory; the possession of a valid hunter's certificate and a valid

hunting license is also mandatory for killing animals caught in traps (bears, foxes etc.). Section 3.1 of the Regulation respecting hunting stipulates that “to obtain a hunter’s or trapper’s certificate, a person must (. . .) take the course on the handling of the weapon in respect of which the certificate is applied for or on the trapping and management of fur-bearing animals; pass the examination corresponding to the course taken and hold an attestation to that effect.” In addition, a person must hold the proper hunting or trapping licence in order to hunt or trap.
