<ul style="list-style-type: none"> • Very informative • Hearing the questions from teachers - it lets me know what info they are missing. • covid stage struggles. Why? Because it's a big challenge • Learning from other people's experience • The links to projects done in other school boards because it can be interesting to implement them in the classroom. • I glad to know the French Resources "Le jeu de simulation globale" were ready and available on LEARN. • Getting to hear about different practices in different schools and COVID special details. • Getting feedback on my immediate questions. Also hearing from other teachers in the field. 	<ul style="list-style-type: none"> • Autonomy and Social Participation • end of the year calendar and expectations • Evaluation themes and documents that exist. • The changes relative to the covid situation. • the role of the guidance counsellor in the WOTP program vs the role of the teachers, and guidelines to approach organisms for internships. • How schools/Teachers can mold the WOTP to fit their school's context. For example, our program deals with students struggling with significant trauma. What would a trauma sensitive WOTP look like? 	<ul style="list-style-type: none"> • I have to think about that question. • Have people submit some questions beforehand, so that answers are prepared. • Maybe knowing in advance the 'ordre du jour' • Doing Mentoring sessions per theme (Ex: Preparation for the job market theme, French Second Language theme...) and during ped days (not teaching days). • I find it already very good. I do not think anything needs to be improved. • Maybe we could send you our questions ahead of time • Add a section for guidance counsellors. I think gc's could bring valuable help to teachers looking for activities for WOTP kids about identity, job skills, etc. • Maybe this is being done already, but I love the English lessons/units listed on the LEARN WOTP page, but I would love to see MORE! I run out of ideas quickly and developing new and interesting content is my greatest obstacle at the moment.
