## How Does it Measure Up?

Evaluates the project

We make choices, decisions and judgments based on a variety of criteria.

**Choose** criteria for ..... and **assess** ..... accordingly.

| Criteria | Activities | How does it measure up? |
|----------|------------|-------------------------|
|          |            |                         |
|          |            |                         |
|          |            |                         |
|          |            |                         |
|          |            |                         |
|          |            |                         |
|          |            |                         |
|          |            |                         |
|          |            |                         |
|          |            |                         |

**What** could I use another time? ▶

**Based on** (rationale) ▶
