

Princess Elizabeth Elementary School CLC Project of Heart

Princess Elizabeth Elementary School CLC

Eastern Townships School Board

This was another great example of a school with only two Inuit students, but that embraced the idea that IRS history is Canadian history, and something all citizens should learn more about.

To further engage the students, an Inuit parent of the school came to spend a day teaching the students how to make dream catchers while telling them more about her traditional culture. A local artist Ena Greyeyes visited our school on numerous occasions to share her stories, artifacts and involved the whole school in drumming and dance.

Ena Greyeyes was the guest speaker at a very moving EVB (Etablissement vert Brundtland) school assembly that was held for Earth Day focusing on the Project of Heart. The EVB philosophy of solidarity, respect, peace and unity blended beautifully with the Project of Heart. Students and teachers in Chisasabe joined in through Skype. All participants were engaged in the entire project and moved (like many other schools) by attending the TRC event.

Many especially enjoyed the Blanket Activity by Kairos Canada and getting to meet their new twin school from Kahnawake. They will continue to learn and practice reconciliation through a Skype and letter writing relationship with each other.

To see more about this project please see the final report.
