

LEARN is a non-profit educational organization with a mandate to serve the English-speaking community of Quebec.

LEARN accomplishes this by offering a wide range of resources and services. These services and resources include elementary and secondary level teaching tools and content; professional learning; community, school and parental support; as well as a full range of online services through the LEARN Virtual Campus.

The Virtual Campus includes online classes for students across the province, personalized tutorials, summer school, as well as customized programs that are developed in concert with schools and school boards.

All of LEARN's efforts are intended to contribute to student retention, academic success and strong English-speaking communities.
